A motion was made and seconded for the Town to raise and appropriate \$157,078 in additional local funds as required to fund the budget recommended by the school committee

The School committee recommends \$157,078 which exceeds the State's Essential Programs and Services funding model by \$157,078.

*Explanation: The additional local funds are those locally raised funds over and above the school administrative unit's local contribution to the total cost of funding public education from kindergarten to grade 12 as described in the Essential Programs and Services Funding Act that will help achieve the town's budget for educational programs.*

*The school committee gives the following reasons for exceeding the State's Essential Programs and Services funding model.*

*Reasons: The additional local fund request exceeds the EPS funding model because the EPS funding model fails to adequately fund small schools. The school's teacher/student ratio is smaller than the EPS model as are most other costs such as transportation, building maintenance, special education, and system administration. EPS formulas are based on what works in larger schools – not what is realistic for a small, isolated island school.*
