

Isle au Haut Ordinance to Manage 911 Addresses ("Addressing Ordinance")

Adopted at Town Meeting November 2, 2016

Section 1. Title

This ordinance will henceforth be known as the "***Addressing Ordinance***."

Section 2. Purpose

The purpose of this ordinance is to enhance the easy and rapid location of structures by law enforcement, fire, rescue, and emergency medical services personnel in the municipality of Isle au Haut.

Section 3. Authority

This ordinance is adopted pursuant to and consistent with Municipal Home Rule Powers as provided for in Article VIII, Part 2, Section 1 of the Constitution of the State of Maine and Title 30-A M.R.S.A. Section 3001.

Section 4. Administration

This ordinance shall be administered by the Code Enforcement Officer (*CEO*) who is authorized to and shall assign road names and numbers to all properties, both on existing and proposed roads, in accordance with the criteria in Sections 5 and 6. The CEO shall be responsible for maintaining the following official records of this ordinance:

- a. A municipal map(s) for official use showing road names and numbers.
- b. An alphabetical list of all property owners as identified by current tax records, by last name, showing the assigned numbers.
- c. An alphabetical list of all roads with property owners listed in order of their assigned numbers.

The Selectmen shall designate an Addressing Officer, who is responsible for and authorized to provide all required addressing and database information to the state agency responsible for the implementation of Enhanced 9-1-1 service.

Section 5. Naming System

All roads that serve two or more structures shall be named regardless of whether the ownership is public or private. A "road" refers to any highway, road, street, avenue, lane, private way, or similar paved, gravel, or dirt thoroughfare. A road name assigned by the municipality shall not constitute or imply acceptance of the road as a public way.

The following criteria shall govern the naming system:

- a. No two roads shall be given the same name (ex. Pine Road and Pine Lane).
- b. No two roads shall have similar-sounding names (ex. Beech Lane and Peach Lane).
- c. Each road shall have the same name throughout its entire length.

Section 6. Numbering System

The following criteria shall govern the numbering system:

- a. Numbers shall be assigned every 50 (fifty) feet along both sides of the road, with even numbers appearing on the left side of the road and odd numbers appearing on the right side of the road, as the numbers ascend.
- b. All number origins shall begin, in general, from west to east and north to south. The origin of the Main Road shall be the National Park Service boundary intersection, just south of Moore's Harbor. The numbering system on Main Road shall terminate at the National Park Service boundary intersection west of Head Harbor. For all roads that branch off the Main Road, the numbering shall start on that side road at the intersection with Main Road. For dead end roads, numbering shall originate at the intersection of the adjacent road and terminate at the dead end.
- c. The number assigned to each structure shall be that of the numbered interval falling closest to the front door or the driveway of said structure if the front door cannot be seen from the main road.
- d. Every structure with more than one principal use or occupancy shall have a separate number for each use or occupancy, i.e. duplexes will have two separate numbers; apartments will have one road number with an apartment number, such as 235 Main Road, Apt 2.

Section 7. Compliance

All owners of structures shall use their best efforts, by the date stipulated in Section 9, to display and maintain in a conspicuous place on said structure, assigned numbers in the following manner:

- a. Number on the Structure or Residence. Where the residence or structure is within 50 (fifty) feet of the edge of the road right-of-way, the assigned number shall be displayed on the front of the residence or structure in the vicinity of the front door or entry.
- b. Number at the Road Line. Where the residence or structure is over 50 (fifty) feet from the edge of the road right-of-way, the assigned number shall be displayed on a post, fence, wall, the mail box, or on some structure within the property adjacent to the walk or access drive to the residence or

structure.

- c. Size, Color, and Location of Number. Numbers shall be of a color that contrasts with their background color and shall be a minimum of four (4) inches in height and no greater than six (6) inches in height. Numbers shall be located to be visible from the road at all times of the year and a minimum of 3 feet above the adjacent ground surface.
- d. Proper number. Every person whose duty is to display an assigned number shall remove any different number which might be mistaken for, or confused with, the number assigned in conformance with this ordinance.
- e. Interior location. All residents and other occupants are requested to post their assigned number and road name adjacent to their telephone for emergency reference.

Section 8. New Construction and Subdivisions

All new construction and subdivisions shall be named and numbered in accordance with the provisions of this ordinance and as follows:

- a. New Construction. Whenever any residence or other structure is constructed or developed, it shall be the duty of the new owner to obtain an assigned number from the CEO. This shall be done at the time of the issuance of the building permit.
- b. New Subdivisions. Any prospective subdivider shall show a proposed road name and lot numbering system on the application submission to the Planning Board. Approval by the Planning Board, after consultation with CEO, shall constitute the assignment of road names and numbers to the lots in the subdivision. On the final plan showing proposed roads, the applicant shall mark on the plan, lines or dots, in the center of the streets every 50 feet so as to aid in the assignment of numbers to structures subsequently constructed.

Section 9. Effective Date

This ordinance shall become effective as of September 1, 2017. It shall be the duty of the CEO to notify by mail each property owner and the U.S. Postal Service of their new address at least 60 (sixty) days prior to the effective date of its use. It shall be the duty of each property owner to comply with this ordinance, including the posting of new property numbers, within 60 (sixty) days following notification. On new structures, numbering shall be installed when the structure is first used or occupied, whichever comes first.
