

RESIDENTIAL AND GENERAL SERVICE

1. A \$35 per month per meter charge.
2. A 20 ¢ per kWh delivery charge based upon electricity usage.
3. A per kWh fuel clause that would pass on to the customer any on island generation fuel costs in the event of disruption of service for whatever reason from Versant Power.
4. A customer who provides evidence the property served is served by a storage heat pump approved by the Cooperative will be charged a 22¢ per KWH consumed power charge.
5. Customers of the Cooperative will be separately invoiced for supply charges on a per kWh basis. Supply charges are determined based upon the monthly transmission and delivery and electricity supply costs charged to the Cooperative by Versant Power and any competitive electricity provider.
