Averi and Dave spent about 20 minutes reviewing the Comprehensive Plan process to date.

Abigail discussed that now the Plan would go before the town voters at a special town meeting that needed to be warned no earlier than 7 days from today. Date to be determined.

Members present expressed primarily satisfaction with the process.

Averi discussed that if the town voted to not accept the plan, the Committee would need to reconvene, submit a new document to the State and the State would need to review again. It was noted that our current proposal took a long period to be reviewed and processed by the state.

Mike Fedosh noted that the plan was very important to have accepted as it is already being referenced in various planning documents, grant applications, and community organization proposals.

Dave asked for any comments should to emailed to the town select board to be added to the formal record and that he would respond to each comment if any were received.

Public Hearing adjourned: 7pm

Respectfully Submitted: David Wallstrom, Isle au Haut Comprehensive Plan Update Committee Chair.
